

# Missing Migrants

Quellen: <https://missingmigrants.iom.int>  
und <https://www.kaggle.com/jmataya/missingmigrants>

This data is sourced from the International Organization for Migration. The data is part of a specific project called the Missing Migrants Project which tracks deaths of migrants, including refugees, who have gone missing along mixed migration routes worldwide. The research behind this project began with the October 2013 tragedies, when at least 368 individuals died in two shipwrecks near the Italian island of Lampedusa. Since then, Missing Migrants Project has developed into an important hub and advocacy source of information that media, researchers, and the general public access for the latest information.

Jahr / Monat – Anzahl – Ort –  
Grund für Tod  
(2020 – Number of Death /  
Missing – Cause – Region)
